### **Who We Are**

KCT is a leading provider of practical training and consulting solutions. We work with a select group of prequalified content experts who understand that leadership, productivity and technology are maximally effective when users' skills and understanding are elevated simultaneously and harmoniously.

### **What We Do**

We prescreen and prequalify instructors, trainers and consultants to ensure the best match for your needs and high achievement of outcome indicators. We start with a needs assessment and/or gap analysis. Time is won because the most effective combination is in place from the beginning. KCT's prequalification of trainers has become our signature procedure, and is the basis for our clients' trust in us.

### **Should You Use KCT?**

If you want an off-the-shelf solution – and one that meets your needs is available – you should use it. If you have specific or niche needs that are not being met or cannot be met by standard approaches, KCT will get you where you want to go faster, for a higher return on your investment.
