

HUMAN RESOURCE CONSULTING

Many organizations need HR help – whether they're a growing company that doesn't have an HR department or a large organization that has an overburdened HR team. In either case, we can help!

Professional Services:

Success Story:

A growing financial services organization was having difficulty finding and keeping employees. The multi-faceted organizational development plan included:

- Personnel audit to identify top performers
- Introduction of a skills assessment tool to guide promotion decisions
- Implementation of an “Employer of Choice” program
- Design and execution of an extensive on-boarding program
- Leadership development programs designed for three separate audiences
 - Supervisors
 - Managers/Directors
 - IT Team Leads
- Reward programs for self-development and talent development

This plan allowed the organization to hire more than 300 employees (18% increase) in twelve months as well as secure two national contracts while continuing to meet contracted performance standards.
